IMAG PROJECTION SYSTEM

IMAG PROJECTION SYSTEM:

The Durham Performing Arts Center has an image magnification system that is available for use at a variable charge dependent upon amount of cameras used to provide IMAG. The system consists of:

- Two (2) - Sanyo PDG-DET100L 7.5K lumen projectors each with a Sanyo LNS-T51 Lens
- Two (2) - AV Stumpfl 9' x 12' front projection screens that are rigged on either side of the proscenium (please see photo above).
- One (1) - Analogway V-SCALE VSL300 Scan Converter
- One (1) - Extron CAT 5 Transmitter
- Two (2) - Extron CAT 5 Receivers

DPAC does not own cameras, however, cameras and operators may be acquired. Contact Technical Director for more information.

STAGE PLAN

MAIN ST

SPECIAL EFFECTS POLICIES

- Technical Director must be made aware of any special effects (such as, but not limited to: haze, low lying fog, confetti, and pyrotechnics) prior to the start of load in.
- DPAC employs a fire watch via the Durham City Fire Marshall's office.
- Any pyrotechnic effect or open flame must be signed off by the Fire Marshall at a time mutually agreed upon before the start of the performance.
- Due to the nature and sensitivity of the fire system, **ALL** doors leading to dressing room areas and off of the stage, must be **CLOSED** upon commencement of theatrical special effects.
- A member of the show **MUST** notify a member of the DPAC production staff prior to the first use of effects, as we must be certain that the fire system is in the proper operating mode to allow for such use.

TRUCK AND BUS PARKING

- Three busses may park in the unloading zone located on the east side of the building on Mangum Street. Please note the sign notating the fire lane. Busses and trucks parked in the fire lane will be made to move.
- Additional parking for more than 3 busses can be acquired by notifying Technical Director at least three (3) days before the scheduled load in time.
- Three (3) trucks may stay in the loading dock at any time. If there are more than three trucks, **arrangements must be made by the touring production for overflow parking.** DPAC does not have control of any of the areas surrounding the venue.

CATERING

If a show utilizes tour catering or any type of mobile kitchen catering service, the following rules apply:

- Cooking may occur on the sides of the building only and not beneath the parking deck behind the theater. Location of cooking will be confirmed during advance.
- Dining room is located one level under the stage. Freight elevator located down stage right serves access.
- All trash must be brought to dumpsters located in the truck parking portion of the loading dock. Washing of dishes is done via a sink, with hot and cold water, located in the dining room.

REMARKS

On behalf of the entire DPAC team, I would like to say a quick thank you for your interest in DPAC. Whether you happen to be a prospective client, Production Manager, Tour Manager or Company Manager, our goal here in the Production Department is to give you the smoothest day that we can in hopes of providing the patrons of DPAC the best experience possible.

Please do not hesitate to ever give me a call or send along an email. I'm here to help in any way that I can.

Safe travels on the road, and I look forward to seeing you soon!

All the best,

Josh Anderson
